Summary: 50 checks executed — 38 Passed, 12 Failed.

UI/UX & Content Consistency Test Log

ID	Area	Test / Check	Expected Result	Actual Result	Status
UI-01	Branding	Theme colour meta tag consistency	Same brand colour is declared across all page templates.	Confirmed — theme-color #8f2a53 present and identical across every page checked (home, product, collection, policy pages).	Passed
UI-02	Responsive	Mobile viewport meta tag presence	Every page declares a responsive viewport meta tag.	Confirmed — identical viewport meta tag present on all pages checked, enabling responsive scaling.	Passed
UI-03	SEO/Meta	Meta description presence and relevance	Every page has a unique, relevant meta description.	Confirmed on all pages checked except one — Sitemap page (/pages/sitemap) has no meta description at all.	Failed
UI-04	SEO/Meta	Canonical tag presence	Every page declares a canonical URL.	Confirmed on all pages checked except one — Size Chart page (/pages/kurti-size-chart) has no canonical tag.	Failed
UI-05	Branding	OG image branding on informational/policy pages	Policy and info pages share a consistent branded preview image.	Confirmed — Terms, Privacy, Return, Fair Usage, Shipping and Store Locator pages all use the same branded website_link_banner.png.	Passed
UI-06	Branding	OG image relevance on product page	Product page preview image should reflect the actual product.	Confirmed — product page's OG image is the actual product photo, not a generic banner.	Passed
UI-07	Footer	Footer section structure consistency	About Us / More Info / Contact Us / Other Information / Follow Us On sections appear identically on every page.	Confirmed identical structure across all 19 pages checked (home, categories, search-linked pages, 3 collections, product, 8 policy/info pages, testimonials, blogs).	Passed
UI-08	Footer	Careers link consistency	Footer's Careers link appears on every page template.	Present on Home, Categories, Contact Us, Terms, Fair Usage, Store Locator, Testimonials, Sitemap and Size Chart pages, but missing from Shipping Policy and both collection pages checked (Bottoms, Dresses).	Failed
UI-09	Footer	Social media icon set consistency	The same 5 social links (Facebook, Instagram, YouTube, Pinterest, LinkedIn) appear on every page.	LinkedIn link missing from Shipping Policy and collection page (Bottoms, Dresses) footers, while present elsewhere.	Failed
UI-10	Content	Sizing range claim consistency	All pages should state the same size range in identical wording.	"XS to 10XL" is used on Home, Categories, Contact Us, Terms, Fair Usage, Size Chart and most blog posts, but "M to 10XL" appears instead in the Return Policy and Shipping Policy footers and in several newer blog articles.	Failed
UI-11	Footer	Manufacturer address consistency	Same manufacturer address appears on every page footer.	Confirmed — identical DSLR Technologies Pvt. Ltd. address text on every page checked.	Passed

ID	Area	Test / Check	Expected Result	Actual Result	Status
UI-12	Navigation	Header icon consistency across page types	Search/Home/Wishlist/Cart icons appear on every page type.	Confirmed present consistently on home, collection, product, search and info pages checked.	Passed
UI-13	Navigation	Breadcrumb on product detail page	Breadcrumb trail is present and correctly linked.	Confirmed: Home > Kurta Bottoms For Women > Product name, correctly linked.	Passed
UI-14	Navigation	Breadcrumb on collection pages	Breadcrumb trail is present on every collection page.	Confirmed on all 3 collection pages checked (Home > Category > Subcategory).	Passed
UI-15	Navigation	Breadcrumb on Store Locator page	Breadcrumb trail is present.	Confirmed: "Home / Aramya Stores" breadcrumb present.	Passed
UI-16	Navigation	Breadcrumb on static/policy pages	Breadcrumb trail is present for consistency with other page types.	No breadcrumb navigation found on Terms, Privacy, Shipping, Fair Usage, Sitemap or Size Chart pages, unlike product/collection/store pages.	Failed
UI-17	Accessibility	On-page heading (H1) presence — product page	Page has one clear, descriptive H1.	Confirmed — product name rendered as the page's main heading.	Passed
UI-18	Accessibility	On-page heading (H1) presence — Size Chart page	Page has one clear, descriptive H1.	Confirmed — "Women's Kurta/Kurti Size Chart" rendered as the main heading.	Passed
UI-19	Accessibility	On-page heading (H1) presence — Categories page	Page has one clear, descriptive H1 given it is a primary navigation landing page.	No visible on-page heading found — page shows only a row of category tiles with no introductory heading.	Failed
UI-20	Accessibility	Image alt-text quality (site-wide)	Images should carry descriptive alt text.	Numerous images site-wide (homepage icons, footer logos, collection filter icons) render alt text as the literal placeholder word "error" instead of a description.	Failed
UI-21	Accessibility	Link text quality on Categories page	Category tile links should use descriptive text (e.g. "Kurtas").	Link text for all 11 tiles renders as placeholder values ("firsterror" through "elevenerror") instead of category names.	Failed
UI-22	Accessibility	Product gallery image alt text	Main product images should carry descriptive alt text.	Confirmed — primary gallery images use descriptive alt text (e.g. "Soft Cotton Solid Grey Tapered Trousers From Aramya 0/1/2").	Passed
UI-23	Content	Promotional banner consistency across shoppable pages	Same offer banner appears on Home, Categories and all Collection pages.	Confirmed identical banner text on all pages checked.	Passed
UI-24	Content	Trust badge row consistency on collection pages	Free Returns / COD / Free Delivery badges appear identically.	Confirmed identical badge row on all 3 collection pages checked.	Passed
UI-25	Content	Trust badge row on product page	Free Returns / COD / Free Delivery badges appear on product page.	Confirmed present with matching wording to collection pages.	Passed
UI-26	Content	Sort/Filter/Size control presence on collections	Controls appear identically on every collection page.	Confirmed on all 3 collection pages checked.	Passed
UI-27	Content	Category filter tile presence on collection pages	Sub-category filter tiles (e.g. Palazzo, Trousers, Dress) appear with icon + label.	Confirmed on Bottoms and Dresses collection pages, each with relevant sub-category tiles.	Passed
UI-28	Performance/Content	Product content present on initial page load	Product name, price and image should be present in the page's initial content.	All 3 collection pages returned only a "Loading products..." placeholder in initial content, with no product name, price or image data present.	Failed
UI-29	Content	Collection-specific SEO copy uniqueness	Each collection has unique descriptive copy, not shared boilerplate.	Confirmed unique copy blocks on Kurtas, Bottoms and Dresses collection pages.	Passed
UI-30	Content	Related/cross-sell collection links on Dresses page	Shop By Colour and Related Collections links are present.	Confirmed: Blue/Green/Black Dress and One Piece/A-line Dress links present and correctly targeted.	Passed
UI-31	Content	Customer rating display on product page	Rating and review count are shown near the top of the page.	Confirmed: "4.7 (9.9K)" displayed below the image gallery.	Passed

ID	Area	Test / Check	Expected Result	Actual Result	Status
UI-32	Content	Structured Product Details table	Material, Shape, Colour, Print, Pockets, Wash Care fields display in a clear table.	Confirmed table present with all 6 fields correctly populated.	Passed
UI-33	Content	Returns & Refunds / Wash & Care section clarity	Sections are clearly labelled and readable.	Confirmed both sections clearly labelled with accurate, readable policy text.	Passed
UI-34	Content	Manufacturer info consistency (product vs footer)	Manufacturer details on product page match the footer.	Confirmed identical DSLR Technologies Pvt. Ltd. details in both locations.	Passed
UI-35	Content	Search page fallback content	Search page shows useful discovery content instead of a blank page.	Confirmed — Popular Searches, Discover and Recommended Products sections all present.	Passed
UI-36	Content	Popular Search suggestion relevance	Suggestions should reflect real, relevant site categories.	Confirmed — all 7 suggestions (Kurtas Under ₹600, Solid Prints, Daily Wear, Anarkali, White Kurtas, A-Line, Palazzo) map to real collections.	Passed
UI-37	Content	Contact Us / Help page FAQ completeness	FAQ covers Refunds, Orders, Delivery, Product and Account topics.	Confirmed all 5 FAQ categories present with substantive, specific answers.	Passed
UI-38	Content	Account-deletion path disclosure	Account deletion process is clearly described and linked.	Confirmed — /account/delete link present with a clear one-line instruction and data-loss warning.	Passed
UI-39	Content	Return Policy vs Terms of Service consistency	Return window and process described identically in both documents.	Confirmed — both state a 7-day return window and the same "My Orders" / Contact Us initiation process.	Passed
UI-40	Content	Shipping Policy vs Terms of Service consistency	Dispatch/delivery timelines match between both documents.	Confirmed — both reference the same shipping policy URL and consistent 2-day dispatch / 5–7 day delivery timeline.	Passed
UI-41	Content	Grievance Officer detail consistency	Same grievance contact name and number appear on both Privacy Policy and Terms of Service.	Confirmed — "Shameek Datta" and the same phone number appear identically on both pages.	Passed
UI-42	Content	Fair Usage Policy distinctiveness	Fair Usage Policy should be substantive and not a duplicate of Return Policy.	Confirmed — page contains unique content specifically addressing excessive-return handling, not a copy of the Return Policy.	Passed
UI-43	Content	Store Locator page content completeness	Store Locator page lists actual store addresses/cities.	Page loads but displays no store address or city data — only a breadcrumb, with no visible listing content.	Failed
UI-44	Content	Size Chart measurement completeness	Full measurement tables are provided for both Kurta and Bottom categories.	Confirmed — complete 14-size tables (XS–10XL) for both categories, covering Shoulders/Bust/Waist/Hips and Waist/Hips/Inseam/Outseam respectively.	Passed
UI-45	Content	Size Chart usage guidance	Clear how-to-measure instructions are provided.	Confirmed — clear step-by-step guidance for measuring kurtas and bottoms is present.	Passed
UI-46	Content	Blogs page content authenticity	Blog listing shows real, complete articles rather than placeholders.	Confirmed — 10+ full-length articles with author name and publish date, not placeholder/lorem-ipsum content.	Passed
UI-47	Content	Blog content sizing-claim consistency	Blog articles state the same size range as the rest of the site.	Several recent blog articles state "M to 10XL" while older articles and the rest of the site state "XS to 10XL".	Failed
UI-48	Content	Testimonials page route resolution	Testimonials route loads as a distinct, working page.	Confirmed — /testimonials resolves correctly and displays a "Customer Reviews" heading (review content itself loads client-side and was not assessed here).	Passed
UI-49	Content	Products Sitemap catalogue scale/authenticity	Products Sitemap reflects a large, real, maintained catalogue.	Confirmed — hundreds of individually named product URLs present with a consistent naming convention and no placeholder entries.	Passed
UI-50	Content	Sitemap category coverage	Sitemap lists collections across the alphabet, matching real site categories.	Confirmed — /pages/sitemap lists real collections from A to 10XL/# grouping, matching categories seen elsewhere on the site.	Passed
